Preface

As part of the scientific events which took place within the M'Hamed Bougara University of Boumerdes, the Research Unit: Materials, Processes and Environment of the Faculty of Technology, organizes, from 12 to 14 November 2019, the 4th international conference on materials and sustainable development (4th ISMSD 2019).

This scientific, technological and environmental gathering will strive to improve by trying:

1. To deepen the subject relating to nanomaterials and their incorporation in other materials.
2. Take an interest in sustainable development by focusing on renewable energies, recycling and recovery of materials, the quality of which will contribute to improving environmental protection.
3. To deepen the university–industry complementarity by multiplying the contacts between them in order to possibly bring solutions to the problems hampering the technological processes.
4. To energize the partnership, collaboration and development of relations between our university and certain foreign universities by working on joint projects to allow, among other things, our doctoral students to benefit from joint supervision and to facilitate exchanges between our students and foreign students.
5. Foster links between national researchers who will take note of the work presented by dissecting it to draw inspiration from it, as far as possible.
6. Choose the best work by rewarding the winners.

To this end, this symposium will focus on:

- Theme 1: Nanomaterials, Nanotechnology and Emerging Intelligent Materials
- Theme 2: Cementitious Materials and Material Properties
- Theme 3: Renewable Energies, Sustainable Development, Recycling and Environment
- Theme 4: Materials, Processes and Transformations

We would like to express our gratitude and appreciation for all of the reviewers who helped us maintain the high quality of manuscripts included in the proceedings published by Springer Nature. We would also like to extend our thanks to the members of the organizing team for their hard work. It is hoped that this volume will be of help to many researchers working in diverse topics present in the ISMSD2019.

It is a great privilege for us to present the proceedings of ISMSD2019 to the authors and delegates of the event. We hope that you will find it useful, exciting and inspiring.

Objectives of the Fourth International Symposium on Materials and Sustainable Development

This book presents the proceedings of the 4th International Symposium on Materials and Sustainable Development ISMSD2019 (CIMDD2019) that was held during 3-day (12–14 November) and organized by the Research Unit: Materials, Processes and Environment and M’hamed Bougara University of Boumerdes (Algeria) in partnership with University of Reims - Champagne-Ardenne (France). This symposium follows the success of CIMDD 2013–2015–2017 and continues the traditions of the highly successful series of International Conferences on the Materials, Processes and Environment. The symposium will provide a unique topical forum to share the latest results of the materials and sustainable development research in Algeria and worldwide.

Organization

Research Unit: Materials, Processes and Environment and M’hamed Bougara University of Boumerdes, in partnership with and University of Reims Champagne-Ardennes

Scientific and Advisory Committee

A. Zerizer	Univ. Boumerdes, Algeria
A. Li	Univ. Reims, France
M. T. Abadlia	Sci. Res. Tech. Coun., Algeria
A. Benmounah	Univ. Boumerdes, Algeria
A. Bezazi	Univ. Guelma, Algeria
B. Safi	Univ. Boumerdes, Algeria
T. A. V. Phan	Ton Duc Thang Univ, Vietnam
Y. Ghernouti	Univ. Boumerdes, Algeria

M. F. R. Al-Khatib	Int. Islamic Univ. Malaysia
K. Boumchedda	Univ. Boumerdes, Algeria
M. Kadri	Univ. Boumerdes, Algeria
R. Tala Ighil	Univ. Boumerdes, Algeria
H. Essawy	Nat. Res. Centre, Egypt
D. Aboutaleb	Univ. Boumerdes, Algeria
T. Bouziani	Univ. Laghouat, Algeria
C. Derail	Univ. Pau, France
R. Chaid	Univ. Boumerdes, Algeria
A. Oudia	Univ. Toulouse, France
M. Hamiane	Univ. Boumerdes, Algeria
M. Arif Kamal	Univ. Aligarh Muslim, India
M. Hachemi	Univ. Boumerdes, Algeria
M. Bououdina	Univ. Bahrain, Bahrain
S. Kebbouche-Gana	Univ. Boumerdes, Algeria
M. Z. Messaoud-Bouregghda	Univ. Boumerdes, Algeria
G. Goli	Univ. Florence, Italy
M. T. Hassaine Douadji	Univ. Tiaret, Algeria
K. Mohammedi	Univ. Boumerdes, Algeria
K. Bouakaz	Univ. Tiaret, Algeria
S. Willfor	Univ. Åbo Akademi, Finland
A. Daoui	Univ. Boumerdes, Algeria

Contents

Hydrogels with Enhanced Adhesive and Rheological Properties for Transdermal Drug Delivery Systems Design	1
N. Baït, B. Grassl, C. Derail, and A. Benaboura	
Effect of Different Anodizing Bath on Improving the Corrosion Resistance of a 2030 Aluminum Alloy	13
M. Benmohamed, A. Benmounah, and A. Haddad	
Influences the Shape of the Floor on the Behavior of Buildings Under Seismic Effect	26
T. Bensattalah, T. Hassaine Daouadji, and M. Zidour	
Fatigue-Life Prediction of Composite Laminate Under Flexural Loading	43
Abderrezak Bezazi, Abderrahim El Mahi, Boudjema Bezzazi, Gilberto Garcia del Pino, and Fabrizio Scarpa	
Study of the Influence of Operational Parameters on the Adsorption of a Dye by a Potato Peels	53
S. Bouranene, S. Bouacherine, and N. Sedira	
Effects of Rare Earth (Ce, Er, Eu) Doping on Structural and Optical Properties of ZnO Aerogels Synthesized in Supercritical Isopropanol	63
F. Bedhouche, D. Djouadi, A. Chelouche, and A. Soualah	
Identification of Defects and Fatigue of Aluminum Plates by Control of Vibration Characteristics	71
A. Chellil, S. Lecheb, I. Gahlouz, H. Mechakra, T. Djedid, and H. Kebir	
Study of Dynamic Behavior Milling for an Aluminum Alloy Part of Type 6061-T6	86
K. Ikkache, A. Chellil, S. Lecheb, and M. O. Sichaib	

Dynamic Behavior Analysis of FGM Clamped Nano-Plates Based on Elastic Foundations	100
A. Chikh	
Optimization of the Preparation Conditions of the Hydrogels Based on OSA Starch/Gelatin	112
K. Ezzroug, A. Hadjsadok, and N. Moulai-Mostefa	
Preparation of Silica-Carbon Nanotubes Colloidal Solutions: Application to Kevlar® Reinforcement	129
H. Kechit, S. Belkhiri, A. K. Bhakta, and Z. Mekhalif	
Evaluation of Chemical, Thermal Properties and Statistical Analysis of Tensile Properties of Jute Fibers Yarns	140
D. Eddine Kari, A. Benmounah, H. Boumediri, A. Bezazi, A. Toufik Moussai, N. Bouhemame, and B. Bezzazi	
Sol Gel Synthesis and Thermal Treatment Effect on Ce³⁺ Doped GdBO₃ Nanoclusters Obtained in Silica Glass	152
Samia Ladjouzi, R. Tala-ighil, L. Guerbous, and F. Bensouici	
High Temperature Magnetic Properties of Dysprosium Iron Garnet (DyIG) Revisited: A Simple Mean-Field Analysis	162
M. Lahoubi and A. Boutaba	
Influence of the Propagation of a Crack on the Modal Frequencies of the Turbine Blades	174
S. Lecheb, A. Chellil, H. Mechakra, and H. Kebir	
Structural, Optical, Electrical and Mechanical Properties of ZnO Co-doped Ag, Mg Thin Films: Annealing Temperature Effect	184
F. Lekoui, M. Ouchabane, S. Hassani, H. Akkari, D. Dergham, N. Saoula, L. Henni, and S. Abdelmoumen	
ZnO Thin Films Grown by Plasma Sputtering Process for Optoelectronic Applications: Effect of Substrate Type	193
D. Mendil, F. Challali, T. Touam, A. Chelouche, and D. Djouadi	
Natural Frequencies of Functionally Graded Plate Composed of a Mixture of Titanium (Ti-6Al-4V) and Zirconia (ZrO₂)	203
H. Saidi, M. Sahla, and A. Tounsi	
Synthesis of Lead-Free Ceramics of the Perovskite Type for Piezoelectric Applications by Conventional Solid-State Reaction	216
K. Sedda, R. Djafar, K. Boumchedda, F. Boukazouha, and M. Latef	
Structural and Optical Properties Study of ZnO Nanocomposites Electrodeposited on Porous Silicon Substrates	223
N. Selmane and A. Chekane	

**Application of Copper Thin Layer Electrical Resistance Sensor
for Corrosion Monitoring in Aggressive Environments 232**
S. Yahi, A. Bensmaili, and A. Haddad

**Ca-Alginate-Carob Galactomannans Beads to Preserve Viability
During Digestive Hostility Transit and Cholesterol Uptake Ability
of Probiotic Bacteria 245**
